

We are aware that your child has a history of diabetes. It is important that this information be **updated annually** to ensure accurate information.

Provide the following:

1. Diabetic Action Plan signed by both physician and parent/guardian.
2. Blood glucose monitor to keep at school.
3. Medication (glucagon and insulin) in a current labeled container provided by your pharmacy. Check expiration date prior to sending medication to school.
4. Supplies:
  - a. Test strips
  - b. Lancets
  - c. Ketone testing supplies
  - d. Snacks, juice and glucose tablets.
  - e. Other supplies (i.e. batteries for insulin pump, infusion set, etc.)
5. To plan for emergencies (secure mode, lockdown, evacuation), work with your school's Licensed School Nurse.

It is your responsibility to plan for your child's menu and carbohydrate count. Nutritional information from Southwest Foodservice Excellence (SFE) can be found on the district website at [www.isd728.org](http://www.isd728.org).

**Bus information:** It is the parent's responsibility to notify the bus company directly of any specific directions for your child's care while riding the bus.

Contact Health Services at your child's school with questions. Thank you.
